7 am – 6 pm

Therapist Team: Now offering comprehensive care – PT, OT and SPEECH

Dan Santioni, PT

Director of Pediatric Therapy

Katherine McKimmy, OT

Erin Saotome, M.A., CCC-SLP

What ages qualify for Pediatrics?

- 0-12 years old or any condition that requires the pediatric approach to care.

What conditions?

- Orthopedic rehabilitation- Torticollis to toe walking
- Post-Surgical Rehabilitation
- Developmental Delay/Disability
- Neurological Disability
- Sensory Integration Dysfunction
- Fine motor impairment
- Speech including language and articulation
- Feeding Concerns

What to expect?

A full comprehensive evaluation will be completed and if needed standardized.

Other objective testing measures will be done to determine the best course of therapy. Family will be intergraded into therapy to assure substantial results and will include a home program. Therapy will be based on play to assure compliance and to make therapy fun. Therapy usually will be scheduled on a weekly basis until specified by the physician or determined by the therapist. Often post-surgical cases are seen multiple time per week.
